Resolved That we protest against any enactment of any laws which deprive American citizens, whether male or female of any constitutional right that we make a united effort to secure the unanimous voice of the women of our faith, and to plead the passage of the 16th amendment during the coming session of congress that we solemnly avow our belief in the doctrines of the patriarchal order of marriage, a doctrine which was revealed to and practiced by Gods people in past ages, and is now re established on earth by divine command of Him who is the same yesterday to day and forever a doctrine which if lived up to and carried out under the directions and precepts pertaining to it and of the higher principles of our nature would conduce to long life strength and the glory of the people practising it And we therefore endorse it as one of the most important principles of our holy religion and claim the right of its practice

POSTMASTER-GENERAL'S REPORT.

BY TELEGRAPH

WASHINGTON Nov 16—The annual report of Postmaster General Key is made public to day It estimates the expenditures for the present and prospective deficiencies in amounts appropriated by congress for star routes and for railway mail transportation In respect to postmasters salaries he says difficulties and embarrassments are encountered arising out of the compensations fixed by the department If the amount appropriated by congress for the purpose be not equal to the amount of compensation established by law there must be a deficiency The appropriation made by congress at its last session was not sufficient to pay for existing service on railroads and should no additional appropriation be made for this service the shortfall in duty under the law to so curtail the service as to fall within the appropriation however much he might consider public interests injured by it Any such failure would lead justly to much complaint Mails would be detained at offices of separation hardly ever less than twelve hours and generally twenty four Books papers and packages passing over great distances on circuitous routes will be detained more than one such office in every mail service and delays will of course result The number of transactions which are initiated conducted and completed by communication through the mails in his opinion it would cause him to close it to our post masters from which it would not seem proper to withdraw compliance which have been the subject of just complaint Postal cards might be allowed to furnish such information as could be given and there no law to compel them to do so For limitation to revenues of the services the report says time again it has been shown that matter of the second and third class does not pay its way through the mails and congress has been urged to increase the rates of postage thereon The question has been considered this session by appropriate committees and discussed by both branches of congress and results have shown that it was not expected that the department should be self sustaining but deficiencies The revenues should be met by appropriations from the general treasury The amount of matter carried through the mails free is very large adding greatly to our expenditures and giving us no revenue The franking privilege has been restored to members of both houses of congress so as to allow them to send free almost everything which they are entitled to transmit through the mail free except letter Tons on tons of books documents seeds shrubs and the like are placed in the mails free of charge on this score Now I most respectfully but earnestly suggest that it would be better policy to reduce the amount of matter sent by the department by curtailing or abolishing the list of free matter and so increasing the rates of postage on matter that give than by appropriating sums made up also to an efficient prompt and fast mail service of mail

The postmaster general recommends that salt ably provision be made by law for delivery to residences in this country free from tons duty of all newspapers and other articles and printed matter received in the mails from foreign countries when dispatched in accordance with conditions prescribed by the international postal union The is urgent need of greater frequency in deliveries and collections in several of the larger cities and in view of the large excess of postage on local matter over the cost of service due mainly to carriers delivery a wise policy would seem to justify more liberal appropriations for the purpose and also for the extension of service to other cities having a population of 50 000 entitling them to it. The postmaster general without repeating the argument here has recommended of last year for a material increase in their compensation He again invites attention to the subject of service rendered by railroad companies in carrying mails between stations and post offices and says it should either be made an element or basis of compensation according to the work done on each route or the railway companies should be relieved from this duty Attention is again called to the insufficiency of compensation allowed under the law for service on many short routes During the last session of congress bills were presented to amend the law regulating the compensation to railway companies for carrying mails so as to base rates of pay upon the items of space speed and frequency It is suggested that the space to be paid for on each route should be limited to a specified amount or certain weight of mails otherwise the compensation of all railroads and consequently the expenditure of more than $9 000 000 annually would be left to the discretion of the postmaster general and he thinks it clear this should not be done.

The other recommendations of general interest made are in brief that congress should authorize temporary contracts for star mail service to be made for one year in case of need without advertisement instead of six months to which by the amended law the department is limited and that he be authorized to prescribe a uniform to be worn by all employees of the postal service with the view to preventing their personation by unauthorized individuals He also recommends the erection of a new postoffice building for San Francisco

The Daily Oregonian.

MONDAY MORNING, NOV. 18, 1878.

THE MORMON QUESTION.

By many concurring incidents attention has again been drawn to the monstrosities of Mormonism. The gross and shameless publicity which attended the consummation of the polygamous alliances in the Miles case was followed by action on the part of the United States authorities of the territory against the offenders, and this again by a most earnest and spirited address by the respectable women of Utah to the women of the whole country, urging them to use all possible efforts to rouse public sentiment against this most debasing system. For several days a case has been in progress before the supreme court of the United States, in which the chief point involved is the right of congress to prohibit in the territories an evil which is cloaked under the name of religion. And now the Mormon women of Utah have held a meeting and caused to be published a series of resolutions in which they appeal in the name of a fanaticism which in the garb of religion has obtained an ascendency over their deluded minds, for protection of an abomination which degrades them and their children, ministers to beastly vices to which decency denies a name, destroys those obligations of the family relation on which private and public virtue alike depend, and fosters every species of brutality and crime for which Mormonism during so many years has had infamous notoriety. The only effect of this address by the Mormon women will be to concentrate public attention throughout the whole country still more strongly upon a gross, disgusting and powerful evil. This is not a case where, as a great writer has said, "vice loses half its evil by losing all its grossness." On the contrary, the hideousness of vice is here aggravated immensely by the gross forms it assumes; and it is rendered even more offensive by the effort it makes, as in the addresses of the Mormon women, or in the argument before the supreme court, to obscure the show of evil by wearing "some form of virtue on its outward parts."

The Salt Lake *Tribune* declares that the Mormon leaders derive aid and comfort from the laxity of the administration at Washington, which cannot be induced to see this evil in its true light. "An alien elder," it says, "comes to Zion and marries three wives at once, and the multifarious wedding is celebrated at the house of the chief priest of this state of Zion. So much bliss could not exist without alloy one of the brides rebelled and a lively scene ensued. But for this domestic incident, and the romance of beauty and accomplishment and seeming innocence thrown in, the lustful English saint could have married his bevy of brides with impunity, and the outrage done to the feelings of this remote community would have produced no ripple upon the surface of American society."

President Hayes, with singular misconception of the situation, recently suggested statehood for Utah as a remedy for existing evils. Such a measure would, in fact, provide for Mormonism the very protection it covets, and enable it to defy interference for all time. It would give the Mormons exclusive control, and drive away all outsiders. With this view statehood is the thing eagerly sought by those who pursue in Utah their polygamous abominations. The *Tribune* earnestly calls upon congress to pass Luttrell's election bill, disfranchising those who practice polygamy, and placing power in the hands of the president to enforce it against all who might resist. Take political power away from the polygamists, and deprive them of the means of carrying elections and selecting juries, and there will be a chance at once not only to punish this crime against morals and civilization, but to stamp it out altogether. The general awakening on the subject which recent events have produced is likely to be felt in congress, and at last may move that body to necessary action.

A RAILROAD CORPORATION IN CONTEMPT.

Under a bill passed by congress at the late session to enforce an accounting by the Pacific railroads with the government, an auditor of railroad accounts has been appointed, who reports to the secretary of the interior that the Central Pacific company has neglected to comply with his official requests for various reports concerning its business operations, its tariffs, present organization, financial condition, etc., or with his demand, made in pursuance of law, that its books should be submitted for his inspection. These requests, the auditor says, have been reiterated from time to time since July last, but without eliciting any reply from the officers of the company other than that they have referred the questions as to the constitutionality of the law and the power of the auditor to make these demands, to their counselors at law, and that these questions are still under advisement. The president of the company recently sent to the auditor a report made out in compliance with the old law; but the auditor claims that this has been superseded by the act of the last session, which authorizes the secretary of the interior to call for such reports as he may deem expedient for the interests of the government. This declares that the neglect or refusal of any railroad to make such reports as may be called for "shall, in each case of such neglect or refusal, work a forfeiture of a sum not less than $1,000 nor more than $5,000, to be recovered by the attorney general in the name and for the use and benefit of the United States." The same section also provides that "it shall be the duty of the secretary of the interior, in all such cases of neglect or refusal, to inform the attorney general of the facts, to the end that such forfeitures may be judicially enforced." In his report the auditor submits a schedule of seven distinct requests made upon the president of the Central Pacific company, none of which have been complied with, and he recommends that proceedings under the law be instituted in each case. The papers have now gone into the hands of the attorney general, and the goverment will proceed to deal with a corporation which, after having been nursed into life and enriched by its liberality, now assumes to defy its authority and withhold from it its dues.

Hon. Richard Williams took his departure yesterday for Washington, to resume his seat in the house of representatives. Mr. Williams has a clear conception of what ought to be done to promote the vital interests of our state; and we may add that he is the only one of our delegation in congress who, during the past year, has done his duty without looking to its effects upon his own political fortunes. He has been anxious only to serve the state, and has labored neither for re election, for partisan ends, nor for the interests of great outside corporations whose strength is exerted to hold us in perpetual vassalage. If the main objects which Mr. Williams has striven for shall fail, it will be solely because of perverse opposition "at the other end of the capitol." The coming session of congress will be the short one, and Mr. Williams will return immediately after the fourth of March next.

A Chicago dispatch states that the honest money league, an organization which was a most potent factor in the recent victory for sound money, has issued a stirring address, setting forth that the fiat money prospect has been put beyond the power of harm for at least two years, but its advocates are already plotting new schemes for attacking credit and business and that the dissemination of correct information regarding questions of public policy is now more than ever needed. It therefore asks encouragement and co-operation from friends of honest money all over the union.

The St. Louis *Journal of Commerce* says: "A Chicago wholesale grocery which, a few years ago, carried sixteen drummers at an expense of $40,000 per annum, and did an almost profitless business, has abandoned the drummer system, spends one fourth of their cost annually in newspaper advertising, and divides the rest among customers. As a natural result the trade has increased ten-fold, and the net profits to the house in 1877 were $130,000."

The Cincinnati *Gazette* says it is not certain that all the states which have been carried by the respect ve parties this year will vote the same way in 1880, for two years may work extraordinary changes; but the Republicans have this advantage, namely, that the "Democrats will have full control of congress, and they are more capable of great blunders than any party that has had an existence in this country."

Tally one. The treasurer of Stark county, Ohio, who recently stole a large amount of county funds and fled to Canada, has been brought back and sentenced to hard labor for twelve years, and to a fine of $60,000 and costs. Treasurers of eighteen other counties in the same state are likewise in default. But vigorous justice like this will probably tend to discourage the habit.

In San Francisco a Chinaman has hanged himself with his queue. If our statesman, Amis, had supposed that the queue would ever be utilized thus, he would not have tried to get a bill through the Oregon legislature to compel the Mongolian to cut it off.

VOTE FOR DELEGATE IN WASHINGTON.

Senator Morton and the Cipher Dispatches.

[Washington Letter, Nov. 6.]

It appears that, after all, the New York *Tribune* does not deserve all the credit for exposing Tilden's villainies in connection with the cipher dispatches. Indeed, the *Tribune* would never have heard of those crooked telegrams had it not been for the sagacity of Senator Morton, who obtained possession of them in less than two weeks after election. This fact is vouched for by a prominent western gentleman here, whose official position should give him every opportunity to know whereof he affirms. He also states that the senator succeeded in obtaining the key to the dispatches, and that, had he lived, he would have exposed the base conspiracy from his seat in the senate. A few weeks before his death the senator is said to have delivered them to a personal friend, with the admonition that they should be used at a time when they would likely do the most good. It is believed that through this agency they fell into the hands of the *Tribune*. Thus it will be seen that even in his last moments the great Indianian rendered his country an illustrious service by securing the evidence of one of the most gigantic pieces of political villainy of which the republic has any record.

War Records of Candidates.

[Redfield's Virginia Letter to Cincinnati Commercial.]

War records of the candidates enter into the canvass largely. We are told of a stay-at-home who was thrilling his audience with a top lofty stretch of the progress of the great Democratic party. To attempt to check that party, he said, was like the Indian who threw a lasso over the smoke stack of an engine on the Pacific road. The other end of the rope being fastened round his body, he was dragged along at the rate of forty miles an hour. The engineer yelled at him, "O, you red devil! I admire your pluck, but d—n your judgment." Voice in the audience—"Where were you during the war?" Orator—"At home, raising corn for the soldiers." Voice—"We admire your judgment, but d—n your pluck."

Baltimore *Gazette*: Grant was in Madrid and saw the attempt recently made on the life of the young king of Spain. Does he still long for power? Can it be possible that he will now insist on a third term?

CITY.

CHRIST REVIVAL MEETINGS.—The union prayer meetings held daily during the past week, culminated in a grand mass meeting at Taylor street M. E. church last night. The spacious audience room was packed to its utmost capacity, and hundreds went away unable to even get within the building. Addresses were made during the evening by Rev. J. A. Cruzan, A. S. Coats, J. H. Acton, Rev. P. S. Stubbs and Capt. M. C. Wilkinson. An overflowing meeting was held in which twelve persons, mostly young men, were seeking the way of salvation. It was decided to continue the meetings every night this week (except Thursday and Saturday) in the room of the Y. M. C. A. Accordingly revival services will be held there to-night at 7 30 o'clock. Thursday night services will be held in all the churches.

ROSEBURG DEATH.—A man named Julius Miller, who resides some distance back of Fort Portland on Dry creek, met with a terrible death last Friday. Miller and his son were employed in clearing a piece of land. A large fir tree, which had been set on fire, fell in the direction where Miller and his boy were working. The son looked up and saw the tree coming down. He fled and just succeeded in getting out of the way. His father, however, did not escape. The tree came down with a dreadful crash, and striking Miller, crushed his body into a shapeless mass. The boy ran home in dreadful fright and informed his mother of the awful affair. Friends were notified, and the body of Miller, crushed past all recognition, was conveyed at his home.

FOREST GROVE.—Owing to the great weight of masonry work the brick pillars supporting the front of Smith's new brick building, at the corner of Front and Washington streets, were giving or "buckled," and have had to be strongly braced. The pillars have all sprung in—some as much as two inches—and timbers have been placed against them to prevent the masonry work from yielding further. What course will be pursued is not known, though it is quite probable that the whole front will have to be temporarily propped up until larger pillars can be built.

A PLEASANT AFFAIR.—Came off at the asylum Thursday evening in honor of the 60th birthday of Mr. Kenworthy. The presentation of a large volume by Dr. Josephi in behalf of the employes, was accompanied by a few appropriate speech by the worthy doctor, which moistened the eyes of all, and somewhat embarrassed the astonished recipient. Mrs. Kenworthy next presented Milton's works, reciting a little poem fitting to the occasion. With many wishes for the anniversary of his four score birth day, the merry group separated.

PRAYER MEETINGS ON SHIP BOARD.—This evening, to-morrow and Friday evenings, at 7:30 o'clock, prayer meetings are to be held on board the British ship *Shenir*. A cordial invitation is extended to the crews, the officers and captains of the vessels in port, by the captain of this beautiful vessel and by Captain Stubbs.

OFF THE TRACK.—Saturday afternoon while the freight train was switching off at Oregon City to allow the Albany express to pass, the rear truck spread, letting four cars down to the ties. The work of repairing the break and getting the freight side-tracked detained the express train over two hours.

U. S. CIRCUIT COURT.—Judge Deady will announce the decision in this court this morning on the exceptions for impertinence to the answers in the Methodist mission case and on the final hearing in the case of Dreyer vs. the State Investment Insurance Company.

HOME TO SEA.—A dispatch from Astoria yesterday states that the steamship *City of Chester*, which sailed from here last Tuesday morning, crossed out at 8 A. M. There was comparatively little wind at the time the dispatch was sent; weather cloudy.

ENTERTAINED.—Prof. Timm and several other Swiss musicians serenaded Mr. Stein last evening, on the occasion of that gentleman's formally opening the East Portland park. A very pleasant time was experienced.

AT THE HOSPITAL.—Mr. James Harvey, the man who had the misfortune to break his leg during the recent fire, is now at St. Vincent's Hospital, where he is being cared for.

STRANDED.

THE AMERICAN SHIP M'NEAR DRIFTS ASHORE NEAR CLATSOP SPIT—VESSEL IN A PERILOUS SITUATION.

The following are copies of dispatches received by Colonel J. R. Farish from Trenchard & Upshur, Portland, furnished:

"ASTORIA, Nov. 16th, 4 P. M.

Strong wind from southwest; bar breaking heavily, weather foggy and rainy. American ship McNear with grain on board is on the sands below Chinook spit on the Washington territory side. Tugs went to her assistance but cannot get her off. A later dispatch on the same day from the same parties to another says: "The *McNear* is inside and has anchored on Chinook spit, she has an easy berth but the tugs cannot do anything until the gale moderates. The vessel is not leaking."

The following particulars concerning the *McNear* are from my record which you can use: The American ship *McNear* left Hongkong for this port on June 8th, arrived off the bar about October 20th, received a pilot but did not take the tug, consequently did not cross in over the bar until November 12th, when the British bark *Cadzow* and Norwegian bark *Dr. Meyer* did, it having been out no tugs, excepting perhaps the latter, as I am informed that the first two attempts made by the tugs outside of band island until a favorable wind they could cross in. The *Cadzow Forest* arrived at Astoria on Friday, November 15th, and the *McNear* remained at anchor. While the *McNear* was outside the usual rumors were taken outside by the tug, and were received in with the aid of the tug.

It is reported that the *McNear* has part of a cargo of Chinese merchandise. In October, 1875, the same sailing ships loaded her with wheat for Queenstown for orders. Her cargo aggregated 88,425 centals and was valued at $76,970. She received 70s. freight.

She is a very staunch vessel; built at Belfast, Ireland, in 1872, of oak and yellow pine, iron and copper (or composition) fastenings, and yellow metal to 1876. She has a registered tonnage of 1,135 tons. She is a three-masted, full-rigged, double-decked ship of 190 feet length, 37½ feet beam and 22 feet depth; owned by E. McNear and commanded by Wm. Taylor.

SAD CASE OF DROWNING.

WILLIAM A. PERKINS, A YOUNG MAN, FALLS OVERBOARD FROM THE RAILROAD FERRY AND IS DROWNED—FRANTIC GRIEF OF HIS MOTHER AND SISTERS.

Saturday evening about 6.30 o'clock a young man named William A. Perkins lost his life by drowning, at the railroad ferry landing at the foot of F street. The following are the circumstances of this truly sad affair:

Owing to some accident at Oregon City the passenger train did not reach the east side depot until a little after 6 o'clock. Among the passengers who came down on the train were a Mrs. Riggs, her two little daughters and son, William Perkins. Just as the ferryboat was swinging into the slip at the foot of F street, and had almost touched the pontoon, young Perkins left his mother and sisters in the cabin and went forward to look after their baggage. It was very dark at the time. By the time young Perkins reached the end of the boat the pontoon was so nearly three feet away, and the former was moving slowly up to it. The distance was so small that the young man thought he would step ashore. In the darkness he missed his footing and fell. He struck his left foot against the pontoon, and falling forward, his shoulder came in rude collision with the end of the timbers. This threw him back, and before he could possibly catch himself, or any one could spring to his assistance, Perkins slipped between and fell into the river. Had the young man been a few seconds later he would have been caught between the boat and pontoon and crushed to death. Several who saw him fall rushed forward and sang out "Man overboard." But in the noise and confusion of the crowd getting ashore, few seemed to know what had occurred, or, if they did, to take any heed. A light and rope were procured as soon as possible, and the latter thrown to him. However, it was of no avail, for the poor fellow was sucked under the boat and perished before assistance could reach him.

Neither his mother nor sisters knew what had occurred for a few minutes. They began to call out for "Willie," supposing he was ashore among the crowd. Failing to elicit a response, the mother became alarmed. Search and inquiry were made and soon the dreadful truth dashed upon the mind of the poor mother that her son was drowned. When she became convinced of the fact she became perfectly frantic with grief. Those who witnessed the scene say that it was most heartrending. The little girls sobbed as if their hearts would break, and called in vain for Willie, and the poor mother could only wring her hands in anguish and distractedly implore them about her: "Give me my boy, where is my Willie? Oh! where shall we go? what shall we do?" All efforts to soothe the frantic mother were in vain. The mother and her two remaining children entered the railroad office and sat down in despair—alone, friendless and penniless. The unfortunate young man had all their money on his person when he was drowned, and thus left the mother without means. Mr. D. H. Stearns, on learning of the accident, and the destitute condition of the family, sought them out and, calling a carriage, had them conveyed to a hotel, where he ordered them to be provided for at his own expense.

The history of this family is certainly a very sad one. Last May, one year ago, Michael Riggs and family arrived in this state from Fairfax, Vermont, and securing a farm near Phoenix in southern Oregon moved upon it. For some cause trouble crossed the threshold of the home and created bitter feeling in the husband against his wife. So intense became the hatred that Mr. Riggs shot his wife, the ball entering her head, but did not prove fatal as intended. Mrs. Riggs upon recovering determined to leave what had been called home, and made preparations by gathering what little money she could, and sending word to her brother in law in Sacramento that she was coming to him. It was for this purpose that Mrs. Riggs came to Portland. She intended to take passage on the outgoing steamer for San Francisco, but was prevented from so doing by this dreadful and unlooked for catastrophe.

Search was made for the body of the unfortunate victim which resulted in its recovery yesterday about noon.

INQUEST—VERDICT.

Soon after being taken from the water the body was conveyed to the morgue, and Coroner Cooke summoned a jury and proceeded to hold an inquest. Several witnesses were examined and the following verdict rendered:

We, the jury, find that the said Wm. A. Perkins came to his death by drowning in the Willamette river, by attempting to land from the railway ferry boat before the boat was properly moored.

INTERESTING TO LADIES.—Dickey's "Creme de Lis" has now been before the public for ten years, during which time this beautiful preparation has met with the highest approval at the hands of the fair sex—being, as all who have used it will verify, the only perfect preparation of its kind. Every ingredient entering the composition of Dickey's "Creme de Lis" is subjected to the most rigid test of modern chemistry, to insure the uniformity and purity of its combination, and neither time nor expense have been spared to make it perfect—it being well known the public will appreciate and support a truly meritorious article. Several new beautifiers under various names, have lately started into existence, but Dickey's "Creme de Lis" has no competition in merit. Sold by all druggists.

AMUSEMENTS.

ENGAGEMENT CLOSED.—Last Saturday afternoon a matinee performance was given at New Market Theater to a crowded house. "East Lynne" was produced in a very acceptable manner. Saturday evening Miss Dargon made her farewell appearance. The lady's rendition of the sleep walking scene from "Macbeth" was certainly very artistic and in every particular worthy of her reputation. Her recitation of "Fontenoy," or "The Charge of the Old Irish Brigade," was one of the most thrilling elocutionary efforts to which it has ever been our good fortune to listen. It was delivered with a sort of "iron hammer method"—bold, firm, dashing and impetuous as a mountain torrent. There was no "resonant ranting," but an energy and certainty of purpose, and elocutionary precision and a fierce and fiery dramatic vehemence quite electrifying to the audience. The lady was greeted with tumultuous applause and was compelled to appear and gracefully recognize the honor so lavishly bestowed. The evening's performance concluded with the old, but favorite Irish drama, "Ireland as it Was." Miss Dargon personated the very Hibernian character of "Judy O'Trot." Of her rendition we can only say that it was quite fair. The character is one immeasurably beneath the artistic qualities of Miss Dargon, and we cannot refrain from expressing regrets that she should attempt to play a part which demands a complete surrender of that quiet dignity which permeates all her character actions. Those who have witnessed Miss Dargon's superb and true may with truth and unsurpassed renditions of "Queen Katherine," in "Henry VIII," Tennyson's "Queen Mary," and "Lucretia Borgia," could not consent to see the lady come down to the rich brogue of the Emerald Isle, the traditional shillelah and the hilarious jig without a sort of mental sacrifice. However, the audience was moved to the most extravagant merriment, and that ought to atone for every short coming, and a seeming disregard of what the severe rules of criticism might denominate "stage proprieties." Mr. Ward as "Pat" was in his element, and got away with nearly all of the applause. The support was good. Artistically and financially, Miss Dargon's engagement must be recorded as a most gratifying success. Theater goers have been delighted and edified by her dignified, refined and thoroughly intelligent impersonations and the lady and Manager Maguire have reaped a golden harvest.

"DAVY CROCKETT."—Mr. Frank Mayo who comes under a short engagement at to Manager Maguire, arrived on the steamer last evening. He enjoyed the voyage very much and arrived in excellent health and spirits. To-night Mr. Mayo will make his appearance before a Portland audience after an absence of nearly seven teen years, in the great impersonation of "Davy Crockett." He will be supported by the full company, including Miss Georgia Woodthrope and Master Kilday. The play has been carefully rehearsed and will be presented in first class style, with every attention to costuming and mechanical effect. Mr. Mayo has long been known as one of the finest actors of the day, and his personation of the character of "Davy Crockett" is regarded as one of the finest things now upon the stage. In speaking of Mr. Mayo in that city, the Detroit *Free Press* says: "His 'Crockett' is the crystalized excellence of ripe experience, of genius for character acting, and of either extraordinary intuition or a consummate knowledge of human nature. It matters little by what process he has accomplished his work. It speaks for itself, and men and women will continue to gaze upon the picture of rare and rugged beauty with ever growing delight, and without once pausing to inquire by color or caking to know what his art is. Mr. Mayo has reached the summit of dramatic excellence in his portrayal of Davy Crockett; and not all the criticism of all the learned critics of time past, time present, and time to come can displace one atom from its firm place in the structure he has reared.

MODERN MIRACLES.

Dr. C. M. Wood, the well-known healer, returns to his practice in Portland, after a rest of six months. His great cures of men, women and children, some of which were published in THE DAILY AND WEEKLY OREGONIAN during last winter, has brought hundreds of letters from anxious sufferers, desiring information as to the permanency of his cures. In order to satisfy those desiring such information, he will publish from time to time through THE OREGONIAN the original certificates of cures, and when possible, to communicate with such patients, a certificate of their present condition. $1,000 forfeited if every cure he has ever published was not genuine as stated.

Dr. Wood

Will heal the sick of chronic diseases, at corner of Washington and Front street, Portland. All curable diseases successfully treated when every other method fails. Dr. Wood cures by animal magnetism, and can point to the most wonderful cures ever performed by this method. *No medicine, no surgical instruments*—no pain whatever.

Cure of Dyspepsia and Chronic Diarrhœa.

For the benefit of suffering humanity I deem it my imperative duty to make known to the public what has been done for me by Dr. C. M. Wood. Having been subject to dyspepsia for some 12 or 14 years, and continuing to grow worse until about four months ago, when it ran into chronic diarrhœa and assumed a very dangerous condition—so much so that I found I would be compelled to stop my duties or find some relief, and having seen one of Dr. Wood's circulars, I concluded to consult him and finally to be treated by him for one month, the result of which I give in a few words. I feel that I am as sound as I ever have been, and that so far as my disease is concerned, I am perfectly cured. JOHN R. CURRY,
Mailing Clerk, Oregonian Office.

PORTLAND, Oct. 31, 1878.

This is to certify that the above diseases, for which Dr. Wood treated me nearly one year ago, have never returned, and am as well to day as when the above certificate was written

JOHN M. CURRY,
Mailing Clerk of THE OREGONIAN.

Dr. Wood cures the following diseases: Chronic Liver Complaint; Disease of the Kidneys; Dyspepsia; Indigestion; Spinal Complaints, Pains in Side, Back, Shoulders, Hips and Chest; Headache; Neuralgia; Heart Disease; Rheumatism, Chronic and Acute Female Diseases and Irregularities, Sore and Weak Eyes, Deafness, Ringing in the head, Bronchial Affections, Chronic Catarrh, and General Debility, caused by any of the above afflictions, at his rooms, southeast corner of Washington and Front streets, over O'Connor's store, up stairs.

FIFTY DOLLARS REWARD.

I will pay the above reward for the conviction of any party or parties who may sell dried fruits purporting to be dried by the Plummer Process that are not so dried. It is the duty of every merchant and citizen to see to it that our fruits are kept up to the proper standard. It is well known that fruits properly cured by my process have no equal in the world, and I propose to protect them against all bogus dried fruits.

For several months past I have used FELLOWS COMPOUND SYRUP OF HYPOPHOSPHITES in phthisis chronic bronchitis and other affections of the chest I have no hesitation in stating it ranks foremost among remedies used in these diseases Z S EARLE M D St John N B

I strongly recommend Fellows Compound Syrup of Hypophosphites to all who suffer in any way from diseases or weakness of the lungs bronchial tubes, or from general debility J H W STOUT M D Georgetown S C

Fellows Compound Syrup of Hypophosphites acted with expedition and entire satisfaction in a case of aphonia which failed to yield to regular treatment S JACOBS M D Pittsburgh Pa

No hesitation in recommending Fellows Compound Syrup of Hypophosphites for general debility or any disease of the lungs H G ADDY M D

In restoring persons suffering from diphtheretic prostration and cough following typhoid fever Fellows Compound Syrup of Hypophosphites is the best remedy I ever used LEWIN CLAY, M D Pugwash N S.

PAUL BRENAN

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Nervous Diseases

He has astonished the People of this Coast by his skilful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease in plain and comprehensive language But where he has found them crushed and broken down by disease, mentally and physical he has restored them to health and happiness for it is well understood that without health there can be no happiness

DR. BRENAN

has made a specialty in the treatment of the following diseases Catarrh Bronchitis and all diseases of the throat and chest by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs including Spermatorrhea Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once, and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual This saves counts in part for the great professional success

All surgical operations can be performed by his skilful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines or instruments to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the old Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients Look out for them they are knaves prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M BRENAN the *Medical Lecturer* and read his sign on his door
